

To Whom it may concern:

I understand that the K-Love Radio Network may be in jeopardy of being removed from FM radio stations. In response to this I am providing the following comments.

My family of four, and many others in the Oklahoma City area receive immeasurable encouragement and benefit from the local K-Love radio station, 88.9 FM. I can't measure the value of having a station that plays music and has DJs which provide nothing but family friendly words and lyrics. Our children sing along with the music and my wife and I get a constant boost from the messages and hope we hear all the time on 88.9 FM. There are so many other stations that use profanity and discuss subjects that are out of bounds for family ears, that the refuge of K-Love has become so, so refreshing and vital.

If K-Love were displaced from the FM radio network, it would be sorely missed in the Oklahoma City area by families like mine. A definite void would be present as we drive in our cars, prepare and eat meals, take showers and just roam around the house--without the usual K-Love presence. K-Love has become a welcome and influential member of our family and community due to its unique method of outreach of contemporary Christian music and biblical values spoken over the airways. The loss of this option would cause numerous people to lose this anchor in their lives.

For all the reasons mentioned above, K-Love definitely has a positive effect on our lives. The theme of K-Love is "positive, encouraging," and that is exactly what it is for my family and the greater Oklahoma City area. Please consider all of these factors and make the decision to keep K-Love available on the FM radio network.

Thank you for your time and consideration.

Sincerely,

Emanuel O. Sears
